Sometimes

Mysterious

We are Jewish Aspie run nonprofit trying to help people with autism via technology, music and the arts.

“As an individual with high-functioning Asperger syndrome and the father of three kids who are also on the spectrum for this disorder, I have always felt a need to make a difference for people with autism.

“As we get funded we intend to help those on the autism spectrum by giving the gift of the arts and technology to make the lives of people with autism better, and to support their families and the educational facilities that serve them. We are determined to make a difference in the lives of people with autism and their families”

We are trying to help autism education for the new school year!!!

Please help us with the following:

- **Donations of Musical Instruments**
-
- **Donations of gift cards to provide tablets, and other technology for classrooms and autistic youth**
-
- **Donations of items to use for silent auctions or raffles**
-
-
- **Help with printing and marketing expenses such as flyers, business cards, magnetic signs for our vehicle**
-
- **Tickets to concerts, shows or events that we can share with families to improve their quality of life.**
-
- **Help with funding for our 501c3**
-
